THE BENGALURU PARKING CRISIS

Every driver in this room has felt this pain.

A Typical Morning in Bengaluru

8:10 AM — You leave home, meeting starts at 9:00 AM

8:35 AM — Arrive at Koramangala. No parking visible.

8:47 AM — Third circle around the block. Still nothing.

8:52 AM — Pay ₹200 to a roadside guy with no receipt.

9:08 AM — Walk 10 minutes. Enter meeting 8 mins late.

This happens EVERY. SINGLE. DAY.

THE SOLUTION

Parko: Bengaluru's First Operator-First Parking Platform

> " We don't just help drivers find parking — we help operators fill every slot. "

For Drivers

- See real-time lot availability on map
- Book a slot in <30 seconds
- Pay via UPI / card — no cash
- Get QR code on phone
- Monthly subscriptions for regulars

For Operators

- Free onboarding — under 15 mins
- Attendant app with QR scanner
- Live dashboard — bookings & revenue
- No hardware investment needed
- Earn from advance bookings, 24/7

Why Now

- BBMP Parking Policy 2.0 mandates digitization
- UPI adoption near-universal in Bengaluru
- 13.2% smart parking CAGR (2025–2033)
- Park+ doesn't own the operator relationship
- Regulatory tailwind — policy pushes supply online
